

## 2015 Engineering Bridge Design Summer Internship at Finley Engineering Group, Inc. (FINLEY)

Our goal is to be one of the world's leading bridge engineering firms, based on a results-oriented approach and an excellent working environment which encourages the development of our staff and creative solutions to the most demanding bridge engineering, scientific, logistics and construction challenges of our era.

Our clients come to FINLEY because of our reputation. It is the efforts of our dedicated staff members working on challenging and successful bridge projects that has built this world-class reputation. FINLEY's summer internship program is designed to provide promising students an opportunity to develop their skills and grow professionally.

Our philosophy is based on ethical conduct, mutual trust and teamwork. We are dedicated to fostering a work environment that excites, enriches and personally rewards each individual. We believe in performance improvement through ongoing testing, reevaluation and continual revision of our standards of excellence.

FINLEY offers up to two (2) summer internships each year.

- Start and end dates range from mid-May until mid-August.
- You will be assigned to one of our design and/or construction engineering projects. You will be working at an entry level bridge engineering position and be given engineering assignments that are suitable for your level of experience and education. An internship at FINLEY will not include CADD production or errands.
- This is a paid internship and you will receive an hourly wage and work a +/- 40 hour work week (normal business hours, Monday – Friday). We will also pay a lump sum for your travel and lodging to FINLEY's office, if you will be away from your hometown. Proof of health insurance is required.
- You will be expected to follow FINLEY's policies and procedures as outlined in our Employee Manual and discussed with you on your first day.

**If you're ready for a challenging and rewarding internship,  
send a cover letter, resume, 3 references and transcripts in one email to  
[bridges@finleyengineeringgroup.com](mailto:bridges@finleyengineeringgroup.com)**

The deadline for receiving applications will be December 31, 2014 and offers made by April 2015
