Norwood, MA 02062 USA

### INTERNSHIP SCOPE OF STUDY

FM Global's research group, based in Norwood, MA, is seeking an intern for 2021 to study in the area of Structures and Natural Hazards research.

Our objective is to increase technical knowledge and to provide loss prevention solutions to FM Global and its clients. This intern will work as part of research projects under the supervision of senior staff within the Structures and Natural Hazards Area of FM Global's Research group. This internship offers the student an opportunity to assist with and perform scientific and engineering projects, with a focus on seismic design information and seismic loss.

Applicants must:

- Be enrolled in a participating college or university and provide a current transcript.
- Be a graduate-level student and be in academic good-standing for graduation.

The study period will be determined by mutual agreement.

Please send your correspondence regarding this internship to: [Hossein.Mostafaci@fmglobal.com](mailto:Hossein.Mostafaci@fmglobal.com).
